

# The Numbers say it all.

## Whether you like it or not! Whether you believe it or not!

This article is based on in-depth discussion with Mr. Ravikumar in Ahmedabad and Hyderabad and carries his approval.

### Introduction

Numerology is nothing but numbers. Specifically, Numerology deals with the single digit numbers from 1 to 9. There are 9 planets. Each planet has its own number and there by the number derives its own vibrations. It is the Hindu astrologer's case that according to your past lives you will be born at a particular time and place. This is the part of the cycle of birth, death and re-birth based on your karmas.

Numerology has many systems and traditions and beliefs. Numerology and numerological divination by systems such as isopsephy were popular among early mathematicians, such as Pythagoras, but are no longer considered part of mathematics by modern scientists. Today, numerology is often associated with the paranormal, alongside astrology and similar divinatory art.

Nowadays people want instant, split-second response to their astrological queries and for this we have numerology. Without fuss or delay – just by knowing your birth date – numerology can come up with startlingly accurate analysis of your personality and inter-personal relationships.

One must remember, of course, that Numerology is a spontaneous, accurate, swift but incomplete answer. To get the whole picture of yourself, your life and where it is leading to, needs careful astrological analysis. Life is complex, deep and confusing. A two second, one paragraph answer can only do limited justice to the questions that you may have. Having said that, let it also be noted that a detailed, more-or-less comprehensive

## Jyotisha

Numerological answer/solution is possible provided the Numerologist is experienced and is given sufficient time to organise his answer. Rest assured the output of numerology is similar to palmistry or astrology.

### No quick learning please!

By now I have neurologically studied over 7000 cases on a professional basis and have been pursuing my numerology research vigorously since many years. Eventually, you have to arrive at an informed instinct. All your study has no meaning till you have inculcated in yourself the divinity that brings to you a self-proclaimed informed instinct.

I am now in my 14th year of astrological practice. In the first two years I made innumerable errors of judgement. Today things are different. My accuracy rate is over 90%, but some mistakes will always be there. Mastering Numerology is a long process of acquiring wisdom through humble application of your study.

### Wherever you go, our network follows.

“Wherever you go, our network follows.” This was a very famous advertising campaign of a telecom service provider. Actually it describes perfectly the connect that numbers have with our life. The moment of your birth and the reigning stars at that point is a coincidence over which you have no control. It is something that is given to you by fate and you have to abide by it.

Your numbers have been decided for you and it is for you to make the best of them. There is no shirking away from them for the whole of your life. Be it negative or be it positive, it is your karma. It will rule over you all your life.

### Two Test Cases

The Vaastuyogam team put two test-cases to Ravikumar. In both cases the team knew the people involved and when we told Ravikumar's analysis to them they agreed 100% with what he said!

### Analysis of truck number GRT 5008

This truck must have had repeated accidents. In fact, its career must have been nothing but one accident upon another. Whatever the earnings from the truck might have been, they all must have gone for the repairs and accident related expenses. The vibration of GRT is 9 (Mars) Total of 5008 is 13. 13 is unlucky. It is considered the devil's number.

Calculate further and you find that 13 totals to 4 . Number 9 (of GRT) and 4 (of 5008) also totals 13. The truck and the owner are doomed!

#### Remedy

Though this is merely an academic question since the truck has been sold and scrapped, what solution would you offer for this truck? The truck owner should have put a deep yellow border on the number plate. Deep yellow colour has good wavelength. It will eliminate negative energy. This is a limited remedy and would definitely reduce accidents the truck encountered.

#### Analysis of flat number A2

This is a tough one because it is a case of the waxing moon and the waning moon. The occupants will see a lot of ups and downs in their life. If, by chance, the owner gives the flat on rent the tenant will cause lot of

troubles for the owner. The number A vibration is 1 and 2 is Moon. There will be arguments and fights in the house during the waning moon and there will be joy and good news during the waxing moon. Anyway, there will always be uncertainty prevailing in the house.

#### Remedy

At the begining of every month he must make a mixture of rice and haldi paste and prominently write the word OM on the main door. He must do this for one year.

#### Remarks made by Vaastuyogam team to Ravikumar

These remedies appear far too simple and not at all thought out scientifically. How come, that after such a brilliantly accurate analysis of the problem you are coming up with some home-baked simple-Simon solution?

**Ravikumar:** This subject is outside the realm of scientific temperament and politically correct posturing. This subject is a divine subject and is based upon blind faith in divine power. ■
